FBCCI Expresses deep concern at the strike called by Bangladesh Shipping labour Federation from 24 July

Dhaka, Thursday 20 July 2017

The Federation of Bangladesh Chambers of Commerce and Industry (FBCCI) Expresses its deep concern at the strike called by Bangladesh Shipping labour Federation from 24 July, 2017. The Strike may disrupt the passenger transfer, and the transport and supply system will also be hampered, fears FBCCI.

The recent congestion in the Chittagong Port has made the unloading of goods very difficult. It causes increasement of container charge and the products gets costlier. In this situation, the strike called by the labours will create negative impact in the economy, FBCCI observed.

FBCCI requests Bangladesh Shipping labour Federation to withdraw the strike and solve the issue through consultation. The apex Trade body also urged the Ministry of Shipping and concerned parties to come forward to solve the crisis immediately.
